

A word cloud visualization of terms related to medical risk and testing. The word "risk" is the largest and most prominent, colored in a light blue. Other large words include "testing", "benefit", "standard", "recent", "imaging", and "alternative". Smaller words are scattered around, including "genomic", "shown", "increased", "added", "review", "mris", "malignant", "image", "includes", "category", "mean", "random", "types", "provide", "diagnostic", "valuable", "suggests", "profile", "unnecessary", "occur", and "benefit". The words are arranged in a roughly circular pattern, with "risk" at the center.

genomic  
shown  
increased  
added  
review  
mris  
standard  
testing  
malignant
